TruFlex canola is Monsanto's second-generation weed control trait offering growers greater flexibility through an extended glyphosate application window up to first flower and an opportunity to apply Roundup Ready® Herbicide with PLANTSHIELD® by Monsanto at higher rates for enhanced weed control.

**ALWAYS READ AND FOLLOW PESTICIDE LABEL DIRECTIONS.** TruFlex™ canola with Roundup Ready® Technology is a commercially approved product. Roundup Ready® technology contains genes that confer tolerance to glyphosate, an active ingredient in Roundup® brand agricultural herbicides. Agricultural herbicides containing glyphosate will kill crops that are not tolerant to glyphosate. Roundup®, Roundup Ready® and TruFlex™ are trademarks of Monsanto Technology LLC.
